MAK - Italiens nr. 1 i alufælge – er beliggende i det smukke område omkring Gardasøen. MAK har i en generation været helt på forkant med teknologi og design, og deres flotte fælge sælges i dag i store dele af verden. Deres udvalg er enormt og vi har kun præsenteret få af deres designs her i brochuren. Se hele programmet på vores hjemmeside, hvor vi også viser eksklusive fælge fra amerikanske Top Tuners, som MAK har rettighederne til i Europa.

Tyske Rial er blandt Europas allerstørste inden for eftermarkedsfælge – og det er fuldt fortjent. Topkvalitet og elegant design går hånd i hånd. På deres fabrik i Polen produceres fælge i million-antal, hvilket sikrer at pris-niveauet er blandt markedets allermost attraktive. På en lang række af deres fælge tilbydes 5 års overfladegaranti – også til vinterbrug.

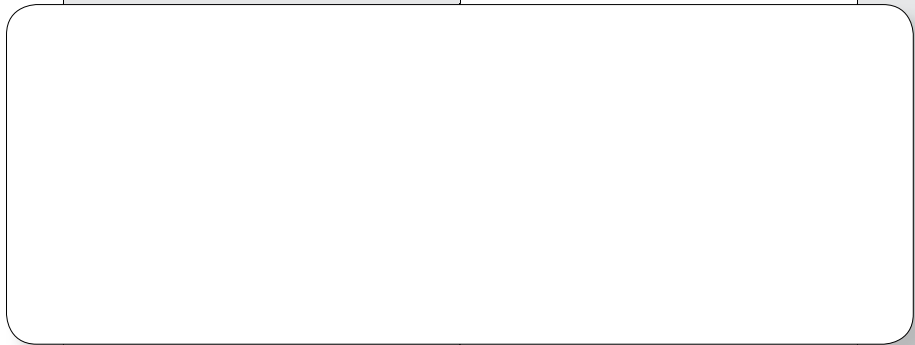

Eurowheels har med succes siden 1993 importeret alufælge og dæk til hele den danske autobranche. Vi handler kun med autobranchen – men henviser naturligvis gerne til en kompetent forhandler af vores produkter.

Vi anbefaler, at vores fælge monteres med kvalitetsdæk fra Continental.

 Velegnet til vinterbrug.

Denne brochure viser et udvalg af vores fælgeprogram – se dem alle på www.eurowheels.dk. På hjemmesiden kan du se, hvilke fælge, der passer på din bil. Vores produkter kan du købe hos din sædvanlige forhandler - nyvognsforhandler, brugtbilsforhandler, værksted, tilbehørsforretning eller dækcenter.
