# About Us

## **ELIT WHEELS - TURKEY**

is a registered trade mark of Elit Jant San.Tic. A.S. Our company is located in Manisa Industrial Zone on a 14000 m2 area. Thanks to its professional team with more than 30 years of experience in the sector, Elit Wheels continues to grow and always keep up with latest technology, and make no compromises in respect of quality and its principles. Our wheels are produced by computer controlled low pressure casting machines using special aluminium alloy, fully conforming to international E.T.R.T.O (The European Tyre and Rim Technical Organization) standards. Elit Wheels produces custom design alloy wheels within the size range of 13" -20". All research and development, product design, product simulation activities and all production phases are carried out in our company by means of high technology support. Our premium quality wheels are the outcome of more than 30 different production processes and pass various tests carried out at test laboratories, meeting highest quality standards. Our production facility has KBA Quality Management System, TUV and ISO 9001:2015 Quality Certificate our wheels are currently being exported to Europe, Middle East and Asia.

## **ELITE WHEELS – TURKEY**

EW è un marchio registrato di Elit Jant. La nostra azienda si trova a Manisa, zona industriale su un'area di 14.000 m2. Grazie al suo team di professionisti con oltre 30 anni di esperienza nel settore, Elit Wheels continua a crescere e a tenere il passo con le ultime tecnologie senza scendere a compromessi in termini di qualità e suoi principi. Le nostre ruote sono prodotte con macchine per colata a bassa pressione controllate da computer utilizzando speciali leghe di alluminio, pienamente conformi agli standard E.T.R.T.O. (organizzazione tecnica Europea per pneumatici e cerchi). Elit Wheels produce cerchi in lega dal design personalizzato con dimensioni comprese tra 13" e 20". Tutta la ricerca e lo sviluppo, la progettazione del prodotto, le attività di simulazione del prodotto e tutte le fasi di produzione sono svolte internamente alla nostra azienda tramite supporto di alta tecnologia. Le nostre ruote di alta qualità sono il risultato di oltre 30 diversi passaggi di produzione e di vari test effettuati presso i nostri laboratori interni, che soddisfano i più alti standard di qualità. Il nostro impianto di produzione dispone del sistema della qualità Kba, del Tuv e del certificato di qualità Iso 9001:2015. Le nostre ruote vengono attualmente esportate in Europa, Medio Oriente e Asia
